

Techno India Group Public School, Durgapur Happy Children's Day

"A child can always teach an adult three things: to be happy for no reason, to always be busy with something, and to know how to demand with all his might that which he desires." - Paulo Coelho
With this thought in our minds, we at Techno India Group Public school celebrated Children's Day with laughter, joy and childishness. Children and teachers enjoyed the fun-frolic day with music, painting and online picnic.

Mathematics when enjoyed while learning can become the greatest stress buster and best friend. Activity based learning is always useful for better concept clearance and usage. Concept of HCF was introduced through activities which involved buttons. The process not only helped the children understand better but also helped them to complete the work on their own.
